ORDINANCE NO. 2005-12-12

STATE OF GEORGIA
COUNTY OF FULTON

AN ORDINANCE TO ADOPT ARTICLES 3, 4, 5, 6, 7, & 8 OF CHAPTER 14, LAND DEVELOPMENT AND ENVIRONMENTAL PROTECTION IN ACCORDANCE WITH STATE MODEL CODES AS AMENDED.

BE IT ORDAINED by the City Council of the City of Sandy Springs, GA while in regular session on December 13, 2005 at 7:00 p.m. as follows:

SECTION 1. That Article 3 of Chapter 14, as it relates to Floodplain Management/Flood Damage Prevention is hereby adopted and approved; and is attached hereto as if fully set forth herein; and,

SECTION 2. That Article 4 of Chapter 14, as it relates to Illicit Discharge and Illegal Connection is hereby adopted and approved; and is attached hereto as if fully set forth herein; and,

SECTION 3. That Article 5 of Chapter 14, as it relates to Post-Development Stormwater management for New Development and Redevelopment is hereby adopted and approved; and is attached hereto as if fully set forth herein; and,

SECTION 4. That Article 6 of Chapter 14, as it relates to Stream Buffer Protection is hereby adopted and approved; and is attached hereto as if fully set forth herein; and,

SECTION 5. That Article 7 of Chapter 14, as it relates to Soil erosion and Sedimentation Control is hereby adopted and approved; and is attached hereto as if fully set forth herein; and,

SECTION 6. That Article 8 of Chapter 14, as it relates to Tree Preservation is hereby adopted and approved; and is attached hereto as if fully set forth herein; and,

SECTION 7. This Ordinance is effective December 13, 2005; and,

SECTION 8. That this Ordinance shall become effective upon its adoption.

ORDAINED this the 13th day of December, 2005.

Approved:

[Signature]
Eva Galambos, Mayor

Attest:

[Signature]
Jeanette R. Marchiafava, City Clerk

Stream Buffer Protection

Section 1: Title.

This ordinance shall be known as the “City of Sandy Springs Stream Buffer Protection Ordinance.”

Section 2: Findings and Purposes.

(a) Findings

Whereas, the Community Development Department of the City of Sandy Springs finds that buffers adjacent to streams provide numerous benefits including:

(i) Protecting, restoring and maintaining the chemical, physical and biological integrity of streams and their water resources

(ii) Removing pollutants delivered in urban stormwater

(iii) Reducing erosion and controlling sedimentation

(iv) Protecting and stabilizing stream banks

(v) Providing for infiltration of stormwater runoff

(vi) Maintaining base flow of streams

(vii) Contributing organic matter that is a source of food and energy for the aquatic ecosystem
(viii) Providing tree canopy to shade streams and promote desirable aquatic habitat

(ix) Providing riparian wildlife habitat

(x) Furnishing scenic value and recreational opportunity

(xi) Providing opportunities for the protection and restoration of greenspace

(b) Purposes

It is the purpose of this Ordinance to protect the public health, safety, environment and general welfare; to minimize public and private losses due to erosion, siltation and water pollution; and to maintain stream water quality by provisions designed to:

(i) Create buffer zones along the streams of the City of Sandy Springs for the protection of water resources; and,

(ii) Minimize land development within such buffers by establishing buffer zone requirements and by requiring authorization for any such activities.

Section 3: Definitions

(a) “Buffer” means, with respect to a stream, a natural or enhanced vegetated area lying adjacent to the stream.

(b) “Director” means Director of City of Sandy Springs Community Development Department.

(c) “Impervious Cover” means any man-made paved, hardened or structural surface regardless of material. Impervious cover includes but is not limited to rooftops, buildings, streets, roads, decks, swimming pools and any concrete or asphalt.

(d) “Land Development” means any land change, including but not limited to clearing, grubbing, stripping, removal of vegetation, dredging, grading, excavating, transporting and filling of land, construction, paving and any other installation of impervious cover.

(e) “Land Development Activity” means those actions or activities which comprise, facilitate or result in land development.

(f) “Land Disturbance” means any land or vegetation change, including, but not limited to, clearing, grubbing, stripping, removal of vegetation, dredging, grading, excavating, transporting and filling of land, that do not involve construction, paving or any other installation of impervious cover.
(g)  "Land Disturbance Activity" means those actions or activities which comprise, facilitate or result in land disturbance.

(h)  "Floodplain" means any land area susceptible to flooding, which would have at least a one percent probability of flooding occurrence in any calendar year based on the basin being fully developed as shown on the current land use plan; i.e., the regulatory flood.

(i)  "Parcel" means any plot, lot or acreage shown as a unit on the latest county tax assessment records.

(j)  "Permit" means the permit issued by the City of Sandy Springs Community Development Department required for undertaking any land development activity.

(k)  "Person" means any individual, partnership, firm, association, joint venture, public or private corporation, trust, estate, commission, board, public or private institution, utility, cooperative, city, county or other political subdivision of the State, any interstate body or any other legal entity.

(l)  "Protection Area, or Stream Protection Area" means, with respect to a stream, the combined areas of all required buffers and setbacks applicable to such stream.

(m)  "Riparian" means belonging or related to the bank of a river, stream, lake, pond or impoundment.

(n)  "Setback" means, with respect to a stream, the area established by Section 5.1.2 extending beyond any buffer applicable to the stream.

(o)  "Stream" means any stream, beginning at:

(i)  The location of a spring, seep, or groundwater outflow that sustains streamflow; or

(ii)  A point in the stream channel with a drainage area of 25 acres or more; or

(iii)  Where evidence indicates the presence of a stream in a drainage area of other than 25 acres, the City of Sandy Springs Community Development Department may require field studies to verify the existence of a stream.

(o)  "Stream Bank" means the sloping land that contains the stream channel and the normal flows of the stream.

(p)  "Stream Channel" means the portion of a watercourse that contains the base flow of the stream.
(q) “Watershed” means the land area that drains into a particular stream.

Section 4: Applicability

This ordinance shall apply to all land development activity on property containing a stream protection area as defined in Section 3 of this ordinance. These requirements are in addition to, and do not replace or supersede, any other applicable buffer requirements established under state law and approval or exemption from these requirements do not constitute approval or exemption from buffer requirements established under state law or from other applicable local, state or federal regulations.

(a) Grandfather Provisions

This ordinance shall not apply to the following activities:

(i) Work consisting of the repair or maintenance of any lawful use of land that is zoned and approved for such use on or before the effective date of this ordinance.

(ii) Existing development and on-going land disturbance activities including but not limited to existing agriculture, silviculture, landscaping, gardening and lawn maintenance, except that new development or land disturbance activities on such properties will be subject to all applicable buffer requirements.

(iii) Any land development activity that is under construction, fully approved for development, scheduled for permit approval or has been submitted for approval as of the effective date of this ordinance.

(iv) Land development activity that has not been submitted for approval, but that is part of a larger master development plan, such as for an office park or other phased development that has been previously approved within two years of the effective date of this ordinance.

(b) Exemptions

The following specific activities are exempt from this ordinance. Exemption of these activities does not constitute an exemption for any other activity proposed on a property.

(i) Activities for the purpose of building one of the following:

(A) a stream crossing by a driveway, transportation route or utility line;

(B) public water supply intake or public wastewater outfall structures;

(C) intrusions necessary to provide access to a property;
(D) public access facilities that must be on the water including boat ramps, docks, foot trails leading directly to the river, fishing platforms and overlooks;

(E) unpaved foot trails and paths;

(F) activities to restore and enhance stream bank stability, vegetation, water quality and/or aquatic habitat, so long as native vegetation and bioengineering techniques are used.

(ii) Public sewer line easements paralleling the creek, except that all easements (permanent and construction) and land disturbance should be at least 25 feet from the top of the bank. This includes such impervious cover as is necessary for the operation and maintenance of the utility, including but not limited to manholes, vents and valve structures. This exemption shall not be construed as allowing the construction of roads, bike paths or other transportation routes in such easements, regardless of paving material, except for access for the uses specifically cited in Item (b)(i), above.

(iii) Land development activities within a right-of-way existing at the time this ordinance takes effect or approved under the terms of this ordinance.

(iv) Within an easement of any utility existing at the time this ordinance takes effect or approved under the terms of this ordinance, land disturbance activities and such impervious cover as is necessary for the operation and maintenance of the utility, including but not limited to manholes, vents and valve structures.

(v) Emergency work necessary to preserve life or property. However, when emergency work is performed under this section, the person performing it shall report such work to the City of Sandy Springs on the next business day after commencement of the work. Within 10 days thereafter, the person shall apply for a permit and perform such work within such time period as may be determined by the City of Sandy Springs to be reasonably necessary to correct any impairment such emergency work may have caused to the water conveyance capacity, stability or water quality of the protection area.

(vi) Forestry and silviculture activities on land that is zoned for forestry, silvicultural or agricultural uses and are not incidental to other land development activity. If such activity results in land disturbance in the buffer that would otherwise be prohibited, then no other land disturbing activity other than normal forest management practices will be allowed on the entire property for three years after the end of the activities that intruded on the buffer.
(vii) After the effective date of this ordinance, it shall apply to new subdividing and platting activities.

Any land development activity within a buffer established hereunder or any impervious cover within a setback established hereunder is prohibited unless a variance is granted pursuant to Section 5.2 below.

Section 5: Land Development Requirements

(a) Buffer and Setback Requirements

All land development activity subject to this ordinance shall meet the following requirements:

(i) An undisturbed natural vegetative buffer shall be maintained for 50 feet, measured horizontally, on both banks (as applicable) of the stream as measured from the point of wrested vegetation.

(ii) An additional setback shall be maintained for 25 feet, measured horizontally, beyond the undisturbed natural vegetative buffer, in which all impervious cover shall be prohibited. Grading, filling and earthmoving shall be minimized within the setback.

(iii) No septic tanks or septic tank drain fields shall be permitted within the buffer or the setback.

(b) Variance Procedures

Variances from the above buffer and setback requirements may be granted in accordance with the following provisions:

(i) Where a parcel was platted prior to the effective date of this ordinance, and its shape, topography or other existing physical condition prevents land development consistent with this ordinance, and the City of Sandy Springs finds and determines that the requirements of this ordinance prohibit the otherwise lawful use of the property by the owner, the Mayor and City Council of the City of Sandy Springs may grant a variance from the buffer and setback requirements hereunder, provided such variance require mitigation measures to offset the effects of any proposed land development on the parcel. Once established by the Mayor and City Council, the Board of Zoning Appeals of the City of Sandy Springs may grant a variance from the buffer and setback requirements hereunder, provided such variance require mitigation measures to offset the effects of any proposed land development on the parcel.
(ii) Except as provided above, and until such time as the Mayor and City Council establishes the Board of Zoning Appeals, the Mayor and City Council shall grant no variance from any provision of this ordinance without first conducting a public hearing on the application for variance and authorizing the granting of the variance by an affirmative vote of the Mayor and City Council. Once established by the Mayor and City Council, the Board of Zoning Appeals of the City of Sandy Springs shall grant no variance from any provision of this ordinance without first conducting a public hearing on the application for variance and authorizing the granting of the variance by an affirmative vote of the The Board of Zoning Appeals. The City of Sandy Springs shall give public notice of each such public hearing in a newspaper of general circulation within the City. The City of Sandy Springs shall require that the applicant post a sign giving notice of the proposed variance and the public hearing. The sign shall be of a size and posted in such a location on the property as to be clearly visible from the primary adjacent road right-of-way.

VARIANCES WILL BE CONSIDERED ONLY IN THE FOLLOWING CASES:

(A) WHEN A PROPERTY'S SHAPE, TOPOGRAPHY OR OTHER PHYSICAL CONDITIONS EXISTING AT THE TIME OF THE ADOPTION OF THIS ORDINANCE PREVENTS LAND DEVELOPMENT UNLESS A BUFFER VARIANCE IS GRANTED.

(B) UNUSUAL CIRCUMSTANCES WHEN STRICT ADHERENCE TO THE MINIMAL BUFFER REQUIREMENTS IN THE ORDINANCE WOULD CREATE AN EXTREME HARDSHIP.

VARIANCES WILL NOT BE CONSIDERED WHEN, FOLLOWING ADOPTION OF THIS ORDINANCE, ACTIONS OF ANY PROPERTY OWNER OF A GIVEN PROPERTY HAVE CREATED CONDITIONS OF A HARDSHIP ON THAT PROPERTY.

(iii) At a minimum, a variance request shall include the following information:

(A) A site map that includes locations of all streams, wetlands, floodplain boundaries and other natural features, as determined by field survey;

(B) A description of the shape, size, topography, slope, soils, vegetation and other physical characteristics of the property;

(C) A detailed site plan that shows the locations of all existing and proposed structures and other impervious cover, the limits of all existing and proposed land disturbance, both inside and outside the buffer and
setback. The exact area of the buffer to be affected shall be accurately and clearly indicated;

(D) Documentation of unusual hardship should the buffer be maintained;
At least one alternative plan, which does not include a buffer or setback intrusion, or an explanation of why such a site plan is not possible;

(E) A calculation of the total area and length of the proposed intrusion;
A stormwater management site plan, if applicable; and,

(F) Proposed mitigation, if any, for the intrusion. If no mitigation is proposed, the request must include an explanation of why none is being proposed.

(iv) The following factors will be considered in determining whether to issue a variance:

(A) The shape, size, topography, slope, soils, vegetation and other physical characteristics of the property;

(B) The locations of all streams on the property, including along property boundaries;

(C) The location and extent of the proposed buffer or setback intrusion;

and,

(D) Whether alternative designs are possible which require less intrusion or no intrusion;

(E) The long-term and construction water-quality impacts of the proposed variance;

(F) Whether issuance of the variance is at least as protective of natural resources and the environment.

Section 6: Compatibility with Other Buffer Regulations and Requirements.

This ordinance is not intended to interfere with, abrogate or annul any other ordinance, rule or regulation, statute or other provision of law. The requirements of this ordinance should be considered minimum requirements, and where any provision of this ordinance imposes restrictions different from those imposed by any other ordinance, rule, regulation or other
provision of law, whichever provisions are more restrictive or impose higher protective standards for human health or the environment shall be considered to take precedence.

Additional standards which apply and will be enforced by Sandy springs are:

(a) Metropolitan River Protection Act and Chattahoochee Corridor Plan:
Requires a 50-foot undisturbed vegetative buffer and 150-foot impervious surface setback on the Chattahoochee and its impoundments and a 35-foot undisturbed vegetative buffer (all measured from the edge of the water) on perennial tributary streams in a Corridor extending 2000 feet from either bank of the river and its impoundments. The Corridor extends from Buford Dam to the downstream limits of the Atlanta region (Douglas and Fulton Counties). Streams in the basin of the Corridor are required to be protected by buffers, but no required width is specified. (Georgia Code 12-5-440 et seq.)

(b) DNR Part 5 Criteria for Small (under 100 square miles) Water Supply Watersheds
Authorized under Part V of the Georgia Planning Act of 1989, these criteria require 100-foot undisturbed buffers and 150-foot setbacks on all perennial streams within 7 miles upstream of a public water supply reservoir or public water supply intake. Beyond 7 miles, the required buffer is 50 feet and the required setback is 75 feet. Equivalent protection measures can be adopted with approval from Georgia DCA and DNR.

(c) DNR Part 5 Criteria for River Protection Authorized under the 1991 Mountains and River Corridors Protection Act of 1991, these criteria require a 100-foot buffer along rivers with average annual flows of greater than 400 cfs (excluding the portion of the Chattahoochee referenced above). The buffer is measured from the top of the stream bank.

(d) Other such State and Federal regulations as may be adopted from time to time.

While the requirements of this ordinance are intended to apply to all streams in the City of Sandy Springs, special conditions may exist that require greater protection. Nothing in this ordinance should be construed as preventing the establishment of wider and/or more restrictive buffers and setbacks as required under any other existing or future legislation. In addition, nothing in this ordinance should be construed as preventing the establishment of wider buffers for purposes of protecting greenspace, preserving habitat or other goals that may not be specifically mandated by legislation.

Section 7: Additional Information Requirements for Development on Buffer Zone Properties.
(a) Any permit applications for property requiring buffers and setbacks hereunder must include the following:

<table>
<thead>
<tr>
<th>(i) A site plan showing:</th>
</tr>
</thead>
<tbody>
<tr>
<td>(A) THE LOCATION OF ALL STREAMS ON THE PROPERTY</td>
</tr>
<tr>
<td>(B) LIMITS OF REQUIRED STREAM BUFFERS AND SETBACKS ON THE PROPERTY</td>
</tr>
<tr>
<td>(C) BUFFER ZONE TOPOGRAPHY WITH CONTOUR LINES AT NO GREATER THAN FIVE (5)-FOOT CONTOUR INTERVALS</td>
</tr>
</tbody>
</table>
(D) DELINEATION OF FORESTED AND OPEN AREAS IN THE BUFFER ZONE

(E) DETAILED PLANS OF ALL PROPOSED LAND DEVELOPMENT IN THE BUFFER AND OF ALL PROPOSED IMPERVIOUS COVER WITHIN THE SETBACK

(ii) A description of all proposed land development within the buffer and setback; and,

(iii) Any other documentation that the City of Sandy Springs may reasonably deem necessary for review of the application and to insure that the buffer zone ordinance is addressed in the approval process.

(iv) All buffer and setback areas must be recorded on the final plat of the property following plan approval.

Section 8: Responsibility.

Neither the issuance of a development permit nor compliance with the conditions thereof, nor with the provisions of this ordinance shall relieve any person from any responsibility otherwise imposed by law for damage to persons or property; nor shall the issuance of any permit hereunder serve to impose any liability upon the City of Sandy Springs, its officers or employees, for injury or damage to persons or property.

Section 9: Inspection.

The Department of Community Development may cause inspections of the work in the buffer or setback to be made periodically during the course thereof and shall make a final inspection following completion of the work. The permittee shall assist the department in making such inspections. The Department of Community Department shall have the authority to conduct such investigations as it may reasonably deem necessary to carry out its duties as prescribed in this ordinance, and for this purpose to enter at reasonable time upon any property, public or private, for the purpose of investigating and inspecting the sites of any land development activities within the protection area.

No person shall refuse entry or access to any authorized representative or agent who requests entry for purposes of inspection, and who presents appropriate credentials, nor shall any person obstruct, hamper or interfere with any such representative while in the process of carrying out official duties.

Section 10: Violations, Enforcement and Penalties.

Any action or inaction which violates the provisions of this ordinance or the requirements of an approved site plan or permit may be subject to the enforcement actions outlined in this Section. Any such action or inaction which is continuous with respect to time is deemed to be
a public nuisance and may be abated by injunctive or other equitable relief. The imposition of any of the penalties described below shall not prevent such equitable relief.

(a) Notice of Violation

If the City of Sandy Springs determines that an applicant or other responsible person has failed to comply with the terms and conditions of a permit, an approved site plan or the provisions of this ordinance, it shall issue a written notice of violation to such applicant or other responsible person. Where a person is engaged in activity covered by this ordinance without having first secured the appropriate permit therefor, the notice of violation shall be served on the owner or the responsible person in charge of the activity being conducted on the site.

The notice of violation shall contain:

(i) The name and address of the owner or the applicant or the responsible person;

(ii) The address or other description of the site upon which the violation is occurring;

(iii) A statement specifying the nature of the violation;

(iv) A description of the remedial measures necessary to bring the action or inaction into compliance with the permit, the approved site plan or this ordinance and the date for the completion of such remedial action;

(v) A statement of the penalty or penalties that may be assessed against the person to whom the notice of violation is directed; and,

(vi) A statement that the determination of violation may be appealed to the City of Sandy Springs by filing a written notice of appeal within thirty (30) days after the notice of violation (except that in the event the violation constitutes an immediate danger to public health or public safety, 24 hours notice shall be sufficient).

(b) Penalties

In the event the remedial measures described in the notice of violation have not been completed by the date set forth for such completion in the notice of violation, any one or more of the following actions or penalties may be taken or assessed against the person to whom the notice of violation was directed. Before taking any of the following actions or imposing any of the following penalties, the City of Sandy Springs shall first notify the applicant or other responsible person in writing of its intended action, and shall provide a reasonable opportunity, of not less than ten days (except that in the event the violation constitutes an immediate danger to public health or public safety, 24 hours notice shall be sufficient) to cure such violation. In the event the applicant or other responsible person fails to cure such violation after
such notice and cure period, the City of Sandy Springs may take any one or more of the following actions or impose any one or more of the following penalties.

(i) **Stop Work Order.** The City of Sandy Springs Community Development Department may issue a stop work order which shall be served on the applicant or other responsible person. The stop work order shall remain in effect until the applicant or other responsible person has taken the remedial measures set forth in the notice of violation or has otherwise cured the violation or violations described therein, provided the stop work order may be withdrawn or modified to enable the applicant or other responsible person to take necessary remedial measures to cure such violation or violations.

(ii) **Withhold Certificate of Occupancy.** The the City of Sandy Springs may refuse to issue a certificate of occupancy for the building or other improvements constructed or being constructed on the site until the applicant or other responsible person has taken the remedial measures set forth in the notice of violation or has otherwise cured the violations described therein.

(iii) **Suspension, Revocation or Modification of Permit.** The the City of Sandy Springs may suspend, revoke or modify the permit authorizing the land development project. A suspended, revoked or modified permit may be reinstated after the applicant or other responsible person has taken the remedial measures set forth in the notice of violation or has otherwise cured the violations described therein, provided such permit may be reinstated (upon such conditions as the City of Sandy Springs may deem necessary) to enable the applicant or other responsible person to take the necessary remedial measures to cure such violations.

(iv) **Civil Penalties.** In the event the applicant or other responsible person fails to take the remedial measures set forth in the notice of violation or otherwise fails to cure the violations described therein within ten days (or such greater period as the City of Sandy Springs shall deem appropriate) (except that in the event the violation constitutes an immediate danger to public health or public safety, 24 hours notice shall be sufficient) after the City of Sandy Springs has taken one or more of the actions described above, the City may impose a penalty not to exceed $1,000 (depending on the severity of the violation) for each day the violation remains unremedied after receipt of the notice of violation.

(v) **Criminal Penalties.** For intentional and flagrant violations of this ordinance, the City of Sandy Springs may issue a citation to the applicant or other responsible person, requiring such person to appear in (appropriate municipal, magistrate or recorders) court to answer charges for such violation. Upon conviction, such person shall be punished by a fine not to exceed $1,000 or imprisonment for 60 days or both. Each act of violation and each day upon which any violation shall occur shall constitute a separate offense.
(a) Administrative Appeal

Any person aggrieved by a decision or order of the City of Sandy Springs Community Development Department, may appeal in writing within 30 days after the issuance of such decision or order to the Director of the Department and shall be entitled to a hearing before the Mayor and City Council of the City of Sandy Springs within 30 days of receipt of the written appeal. Once established by the Mayor and City Council, the Board of Zoning Appeals of the City of Sandy Springs shall hear such appeals.

(b) Judicial Review

Any person aggrieved by a decision or order of City of Sandy Springs, after exhausting all administrative remedies, shall have the right to appeal de novo to the Superior Court of Fulton County.

(c) Severability

If any article, section, subsection, paragraph, clause, phrase or provision of this ordinance shall be adjudged invalid or held unconstitutional, such decision shall not affect or invalidate the remaining portions of this ordinance.
