Background:

The police department is replacing nineteen (19) patrol cars in the fleet this year. It has been our practice to maintain our total fleet at the current level, which is 156 vehicles. In order to stay at this figure, we need to dispose of 19 vehicles that are currently in service. It has been our practice in the past to dispose of these replaced vehicles by selling them to dealerships or donating them to city hall. The State of Georgia's Public Safety Center in Forsyth has also asked for any assistance that we may be able to provide them via equipment donations this year. The donation of fleet vehicles would only stand to enhance our relationship with the training center from both a public relations and facility usage perspective.

Recommendation:

The attached spread sheet has a complete breakdown of the vehicles being replaced this year, to include recommendations for donations and sales. Officer Evans has worked with Michael Casey to get the number for city hall, and the state specifically requested 10 vehicles if at all possible.
