

BUILDING PERMIT FEES

Permit Fees		
ADMINISTRATIVE FEE	\$25 for all new permit applications submitted	
BUILDING VALUATION	Building permits will be calculated based on the current International Code Council's bi-annually published Building Validation Data	
	Tenant Improvements Additions: Major: 40% of the current ICC BVD table. Minor: 20% of the current ICC BVD table. <i>Additions to dwelling unit fees shall be based on 50% of the current ICC BVD table when said addition area does not exceed 50%</i>	
	The following valuation shall be used for electrical, mechanical, plumbing, and building permits in which square footage is not an applicable determinant to calculate building valuation: <ol style="list-style-type: none"> <i>a. Total job cost based on valuation up to and including \$5,000 will incur minimum permit fee of \$50</i> <i>b. Total job cost based on valuation that exceeds \$5,000 will incur \$50 minimum permit fee plus \$5.00 for each additional \$1,000 or fraction thereof</i> 	
PERMIT FEES BASED ON VALUATIONS	Use	Fee
	Residential	\$5.00 per \$1,000 BVD
	Commercial	\$8.00 per \$1,000 BVD

	Water and Sewer (in right-of-way or on public property/easement)	\$425

Important Points

- The BVD is not intended to apply to alterations or repairs to existing buildings. Because the scope of alterations or repairs to an existing building varies so greatly, the Square Foot Construction Costs table does not reflect accurate values for that purpose. However, the Square Foot Construction Costs table can be used to determine the cost of an addition that is basically a stand-alone building which happens to be attached to an existing building. In the case of such additions, the only alterations to the existing building would involve the attachment of the addition to the existing building and the openings between the addition and the existing building.
- For purposes of establishing the Permit Fee Multiplier, the estimated total annual construction value for a given time period (1 year) is the sum of each building's value (Gross Area x Square Foot Construction Cost) for that time period (e.g., 1 year).
- The Square Foot Construction Cost does not include the price of the land on which the building is built. The Square Foot Construction Cost takes into account everything from foundation work to the roof structure and coverings but does not include the price of the land. The cost of the land does not affect the cost of related code enforcement activities and is not included in the Square Foot Construction Cost.

Square Foot Construction Costs ^{a, b, c}
