OVERVIEW: GOALS FOR THE CULTURAL CENTER

From the 2012 Master Plan document:

“Create an appropriate setting for a new civic/cultural center that functions as a place of community activity and identity.”

“Public interest in parks, walkable streets and cultural events that bring people together can shape private investment that helps build a welcoming place full of life and community.”

“Introduce a green space network that accommodates a variety of activities, draws activity from new development, and ties together City Center, Sandy Springs’ established neighborhoods, and existing open spaces.”

“Introduce active, connected green space network.”

Measures of Success: “A civic/cultural center, integrating a building with complementary public landscaped areas, is prominently in place. It attracts residents from throughout Sandy Springs to participate in a variety of activities throughout the day and week, with emphasis on cultural and community activities besides day-to-day City business.”

Continues the City’s “The Next Ten” initiative outlined - that the City Springs District is unique, vibrant, and walkable district, serves as a civic/cultural center for Sandy Springs, and a focus for community activity and identity.
PROGRAMS AND ENTITIES

Proposed Occupants:

**Georgia Commission on the Holocaust**
Anne Frank Exhibit
William Alexander Scott III Exhibit
Holocaust Exhibitions

**Exhibit Gallery**
Flexible exhibition gallery or galleries, Rotating content

**Sandy Springs/Perimeter Chamber of Commerce**
Offices and meeting spaces

**Visit Sandy Springs**
Offices and flexible work/meeting rooms
Brochure display areas
OVERVIEW:

Overall
19,000-25,000 square feet of program area
Individual program areas, with shared spaces and services

Street Access
GHC and Visit Sandy Springs need direct street access

Urban Connections
Emphasis on the Blue Stone corridor
Connect to existing parks as available
Incorporate recent streetscape upgrades
Reinforcing the corridors and park space identified by the Master Plan

**Exhibit 21: Proposed Off-Street Multi-use Path Network**

- **Enhanced Bicycle Network**
  - Bicycle lanes extending into adjacent neighborhoods along major streets connect surrounding communities to the City Center.
  - Potential off-street bicycle/pedestrian network could provide optimally safe and convenient circulation throughout City Center’s core.
  - Built with bicycles and pedestrians as a top priority, new streets provide opportunities for bicycle lanes and wide sidewalks.
Reinforcing the pedestrian focus

Nearby trails

Shared Parking

Pedestrian Corridors

Site Analysis

The proposed green space framework includes varied types of open space: more formal, intimate space lined with active uses (City Green) and larger, more passive space for recreation (Heritage Green playground). These appeal to a wide range of residents and visitors and allow diverse programming that can appeal to many users.
**HERITAGE GREEN** (Sandy Springs Circle/Bluestone Road corridor). An active area combining the events and tranquility of Heritage Green with an intense retail “main street” reviving the City Walk development. Significant new housing at City Walk, an extension of Bluestone Road north of Hilderbrand Drive to connect with the City Green, and development on other sites will bring activity to the neighborhood and tie it securely into nearby housing, existing and new.

**GATEWAY WEST** (Sandy Springs Circle/Bluestone Road corridor). A redeveloped north edge of Hammond Drive will join existing housing and staged redevelopment of large sites to the south to create a distinct and highly accessible neighborhood. New cross streets and improved sidewalks and crosswalks can transform this auto-dominated corridor into a place for people.

Adjacent neighborhoods will enjoy easy access to new retail, park and cultural amenities thanks to better connections that discourage cut-through traffic. These connections will include walking and biking routes as well as new public parking that lets residents park in one place to reach multiple destinations. This improved access to amenities will increase property values in Sandy Springs, especially in places within walking distance of City Center.
Core Principles that we see so far:

Program is defined by:
Outreach, History, and Imagination

Maintaining discrete but interconnected identities for each

Creating memorable experiences from the inside out.

Reflecting the unique qualities of Sandy Springs
### What would you prioritize?

<table>
<thead>
<tr>
<th></th>

<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Direct walking connection to a park if available.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Outdoor garden space</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Onsite visitor parking</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Covered vehicle drop-off</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Cafe or similar food service (could be rotating/seasonal)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Outdoor event space</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Net Zero energy consumption</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Feedback and Input

- What do the arts in Sandy Springs represent to you?
- What does the new downtown represent to you?
- What do Sandy Spring’s parks mean to you?
- How should the Cultural Center fit into the new downtown?
- What kind of events can you imagine happening at the Center?
- What kind of ‘vibe’ should the Cultural Center have?
- What else should the design team consider?
REVIEW OF INPUT SESSIONS
NEXT STEPS

Work Session in January:
Present findings from Input Meeting

Council Retreat in January:
Presentation of schematic design
THANK YOU FOR COMING OUT AND SHARING YOUR THOUGHTS.
