SECTION 1: BACKGROUND AND GENERAL INFORMATION

In 2018, Mayor Rusty Paul assembled a task force to assess ways to revitalize the North End of Sandy Springs. The task force was guided by the following mission statement:

“To create a vision and plan for revitalizing Sandy Springs’ North End that is achievable and sustainable, that benefits the City as a whole, and that creates a place for the families presently living in the neighborhoods. In doing its work, the task force will describe the role that the City should play in this plan, the roles that others—including businesses and landowners—will be asked to play, and will recommend a set of actions for the City Council to consider in 2019.”

The task force began with a well-attended public meeting. Input from the meeting was utilized to understand the current situation, find a vision, and assess obstacles and alternative paths to success.

The City is now moving forward with its commitment to support revitalization of the North End by seeking a consultant to develop conceptual plans that will provide a basis for further conversations regarding potential redevelopment scenarios (“Project”). The City has identified four (4) retail sites as being under-utilized and sees their potential to serve the North End in new and inclusive ways after thoughtful redevelopment. However, the selected sites are not City-owned.

SECTION 2: SCOPE OF WORK

The City is seeking a qualified consultant (“Consultant”) to develop three (3) conceptual master plans for each of the following four (4) shopping centers in the North End of Sandy Springs (total of twelve (12) plans):

1. Former Loehmann’s Plaza (8610 Roswell Road), approximately 13 acres
2. Northridge Shopping Center (8331-8371 Roswell Road), approximately 11 acres
3. North River Shopping Center (8765-8897 Roswell Road), approximately 13 acres
4. Big Lots Center (7300 Roswell Road), approximately 8.83 acres

For each site, one conceptual plan will conform to the current City Development Code requirements, one will test the code requirements and potentially require minor adjustments from the code, and the third will be unique and although meeting the basic concepts of the Next Ten plan, would not be bound by code requirements. Consideration should also be given to public comments included in the North End Redevelopment Report.

Task 1 – Outreach

Public Involvement Plan

The Consultant will include a proposed Public Involvement Plan that uses a variety of public involvement techniques and coordination to inform the public of the Project progress and provide focused input during key times in the Project. Providing the public with an opportunity to have input on issues and potential solutions helps staff know what challenges and opportunities exist in the Project area. The Consultant will use traditional and innovative techniques to conduct outreach to community, including traditional public meetings and online public input. In addition, the Consultant will provide information that will be loaded on the City’s website. The Public Involvement Plan should remain open to revision throughout the life of the Project and adjust based on feedback during major milestones. The Plan should also incorporate outreach efforts with staff and with Mayor and City Council.

The Consultant will hold at least two (2) City-wide public meetings using the open house format: the first at the beginning of the Project to take public input; and the second at the end of the Project displaying the preferred conceptual plans, prior to the plans being presented to the Mayor and Council.

Additionally, the Consultant shall hold a minimum of one (1) meeting at each of the properties to obtain public input on each area. This meeting shall be held at the beginning of the process to discuss the Project and to obtain input from the community on its vision for the property and how neighborhood connections might be made. There could be additional meetings if needed. The property meetings should be coordinated to ensure that the community has the opportunity to participate in discussions for multiple properties on the same day.

Mayor and City Council and Staff Work Sessions

Obtaining input from the Mayor and City Council and staff is paramount during Project development. Meetings to obtain plan input will be scheduled by the City to be held at City Hall. The City expects that the Mayor, City Council and staff will be briefed at least two (2) times over the life of the Project: at kickoff and at conceptual plan. In addition, given the restricted timeframe to schedule such meetings, it is important for the Consultant to remain flexible as work sessions can be scheduled with little notice.

At each meeting, the Consultant will provide items to facilitate public discussion about the subject properties, at a minimum:

1. Map of the existing area showing parcels and streets and right-of-way
2. Map showing topography, water features and existing vegetation
3. Aerial photo of the existing area

Deliverables

1. Public involvement plan meetings
2. Organize two (2) City-wide public meetings
3. Organize one (1) public meeting for each of the properties
4. Consult with each property owner/management company
5. Participate in Mayor and City Council and staff work sessions, with a minimum of two (2) meetings
6. Provide materials for City website
7. Summarize all public feedback into a final report of Project
8. Three (3) conceptual plans for all four (4) properties for a total for twelve (12) plans

Task 2 – Inventory and Environment

Existing Conditions

A comprehensive review of the existing conditions shall be performed including, but not limited to, the identification of existing land uses, zoning, GIS data, aerial photos, utility plans and data, list of regulatory agencies with legal jurisdiction that could be involved in the Project, and current and past planning and programming studies and documents.

Mapping

A detailed map showing each of the four (4) properties will be created highlighting trails, rivers, streams, utility easements and routes, jurisdictional boundaries, property setbacks and buffers, the zoning classification and other major landmarks. In addition, a map showing the topographic features and parcel boundaries in the study area should be provided. The most recent aerial photography should be used to ensure the current landscape is properly represented. All maps should be made available in formats easily viewed on the Internet.

Environmental screening

The Consultant will conduct an environmental screening of the area. The screening will include:

1. Delineation of jurisdictional wetlands and non-wetland waters of the U.S. in the field and map on aerial photos
2. A compliance level history survey to provide boundaries, mapped on aerial photos of resources as concurred by the Atlanta Regional Commission (“ARC”) and the Georgia Department of Natural Resources (“DNR”)

Deliverables:

1. Existing conditions report
2. Maps showing existing landscape in each of the four (4) properties including, but not limited to, personal boundaries, water features, land uses, and topographic features

Task 3 – Conceptual Plans

Prepare three (3) conceptual site plans for redevelopment of each of the four (4) listed properties (total of twelve (12) plans). For each site, one conceptual plan will conform to the current City Development Code requirements, one will test the code requirements and potentially require minor adjustments from the code, and the third will be unique and although meeting the basic concepts of the Next Ten plan, would not be bound by code requirements. Conceptual plans should include street layout and any amenities such as parks, multiuse paths and water features. Conceptual plan should be prepared for City Manager and staff review by October 1, 2020.

Deliverable:

Prepare final document as a master plan for the four (4) properties based on public, staff, stakeholders, and Mayor and Council input:

1. Base sheet for each property area
2. Final base sheet for each property
3. Inventory sheets for the property, including hydrology, vegetation, and elevation
4. Plans illustrating the jurisdictional regulations for the property
5. Documentation of each public meeting
6. Recommended program for development of property
7. Three (3) illustrative conceptual plans for each property
9. Economic feasibility, including cost to construct for each of the twelve (12) plans
8. Provide these documents to the City for final review and approval
9. Update plan from final comments
10. Provide one (1) hard copy of all documents and PDF files for City use

SECTION 3: SUBMITTAL OF PROPOSAL

Proposals shall be submitted through the Bonfire portal at <https://sandysprings.bonfirehub.com/projects/view/19330> no later than 2:00 PM EST on October 31, 2019.

A Proposal received after this date and time or at any other location will not be accepted or considered. The City is not responsible for delays caused for any reason.
