American Medical Response units handled patient care, and fire personnel provided apparatus for traffic control.
- Units responded to assist with a water rescue by Roswell Fire Department. Two children on tubes missed the take out at Azalea Drive when a severe storm began. Parents were unable to locate the occupants. The crew entered the water at the upper ramp to Morgan Falls Dam. Fire personnel located the two individuals, and safely got them back to shore.
- Units responded to reports of a structure fire in the 8600 block of Roberts Drive. The crew arrived on scene to a two story multi-family residential structure with light smoke and small flames showing from an exterior closet on the second floor balcony. Smoldering and charred objects were found in the exterior closet directly below on the first floor. Residents extinguished the fire in the first floor closet prior to SSFD's arrival. Sandy Springs personnel extinguished the remaining fire on the second floor with a water can. American Medical Response (AMR) assessed one patient for minor smoke inhalation. No fire extension was located in the apartments, but minor residual smoke was present in the common attic. Residents returned to their apartments after personnel ventilated and overhauled the affected apartment.
- Units responded to reports of a dumpster fire in the 200 block of Waterford Place. Upon arrival, the crew found trash compactor contents for the apartment complex on fire.
