

**To:** John McDonough, City Manager  
**From:** Ronnie Young, Recreation & Parks Director  
**Date:** April 13, 2011 for Submission onto the April 19, 2010 City Council Work Session  
**Description:** Discussion of the possibility of obtaining the Fulton County facility property (23 acres) at the intersection of Riverside Drive and Old Riverside Drive for a city park.

---

***CMO (City Manager's Office) Recommendation:***

Ronnie Young, Director of Recreation and Parks will lead a general discussion of the possibilities for the site as a city park.

***Background:***

In March 2011 a group of elected officials, City, Fulton County staff, and interested citizens walked the property on Riverside Drive. The purpose was to familiarize everyone with the topography of the property and discuss possibilities of leisure amenities.

***Discussion:***

Staff will need direction as to how to proceed. Public meetings, professional master plan, or an in-house design are options. Further discussion needed with Fulton County officials concerning how the property could be made available to the city and restriction that might apply.

***Final Impact:***

The area could become another beautiful city park.
