ITEM: Consideration of Approval of the Acceptance of the Permanent Subsurface and Construction Easement for Construction and Maintenance of Retaining Wall

Public Works Recommendation:

The Staff recommends that the Mayor and City Council accept the following Permanent Subsurface and Construction Easement of Construction and Maintenance of Retaining Wall from Lawrence Anthony Burdette of 151 Hildebrand Drive in Land Lot 89 of the 17th District.

Background:

The project is a series of improvements on the Heritage Green Site occupied by Heritage Sandy Springs and owned by the City. Part of the site work includes tying into an existing concrete wall with proposed segmental block walls. It was determined necessary to propose grading work beyond the retaining walls in order to accomplish the site work necessary. Therefore, an easement plat was prepared (attached) and discussions were made with the adjacent landowner to obtain the easement and accomplish the work.

Discussion:

The easement was prepared by the consulting firm preparing the drawings and preparation of the easement utilized an existing boundary survey of the property.

Alternatives:

N/A.

Financial Impact:

The property owners listed above have electively donated the Subsurface and Construction and Maintenance of Retaining Wall. The City did not have to expend funds for easement acquisitions. However, the City will be responsible for the maintenance of said easement if any is required.
