REMARKS:

TO: John McDonough, City Manager

FROM: Tom Black, Public Works Director

DATE: November 23, 2010, for Submission onto the Agenda of the December 7, 2010, City Council Meeting

ITEM: Approval for the Mayor to sign the List of Roadways for submittal to GDOT

Public Works Department's Recommendation:

Staff recommends that the City Council grant approval for the Mayor to sign the List of Roadways for submittal to GDOT.

Background:

The City regularly requests that GDOT consider modifications to the List of Roadways, which is the repository for all the roads in the State that have been approved for radar speed enforcement. GDOT considers the City's requests and returns a list that they are willing to send to the Department of Public Safety for inclusion on the master radar permit. This list must be signed by the Mayor prior to GDOT sending it to DPS.

Discussion:

The City requested that GDOT consider several modifications to the List of Roadways for the City of Sandy Springs. Attached is the proposed List of Roads (List Number 11-2010-01) approved by GDOT that the Council needs to authorize the Mayor to sign. A spreadsheet has been included showing only the modifications that are new in this list, along with a description of the change.

Alternatives:

The City can choose not to update the speed limits. Should they decide to not approve these changes, none of the proposed changes will be enforceable by radar.

Financial Impact:

If the City chooses to adopt the ordinance, nineteen roads and one school zone include a modification to or establishment of the speed limit. Many of these are already posted at the proposed speed. Staff anticipates no more than a dozen new sign installations will be needed to accommodate the proposed changes. This will cost the City at most \$1,200 for new signs and posts. As an added value to the City, labor would be provided for this work through the existing contracts.
