ITEM: Revision to Lost Corners Conceptual Land Use Plan

Public Works Department's Recommendation:

Public Works' staff is recommending a revision to the Lost Corners Conceptual Land Use Plan.

Background:

McFarland-Dyer and Associates, Inc. (MDA) developed a site survey and conceptual land use plan for the Lost Corners site. Public Works staff from the Divisions of Transportation Planning and Traffic Services have reviewed the plan and are suggesting a revision to the conceptual land use plan.

Discussion:

The revision request is to relocate the proposed entrance to the park a minimum of 200' south of the intersection of Riverside Drive and Brandon Mill Road as shown on the attached sketch. This location will both minimize impacts to existing trees and will result in the safest location for entering and leaving the park.
